“Co-ops: The Solution Movement - Celebrating 75 Years”

AGM | CONFERENCE | TRADESHOW

“Co-ops solve problems. In our province, Co-operatives and Credit Unions have always been foundational to the success of our rural and metro areas alike. In every sector, solution-based organizations are becoming more critical than ever. Our co-op members – who today comprise a fifth of the provincial population – are part of a growing ‘solution movement’, built to sustain our diverse communities and resources.”

Our Team

We proudly represent the co-operatives and credit unions of Newfoundland & Labrador. We present a united voice for the co-op sector and represent the collective interests of our members through interactions with other co-op organizations, federal and provincial governments, and external developmental agencies.

We promote the co-op model at every opportunity, as a sustainable and community-minded approach to a better future, using our member co-ops and credit unions as the prime example of how co-operative thinking is already a major contributor to the economic and social development of our communities.

The NLFC are a small but mighty team of four who exude passion for the co-op sector and the membership of the Federation. The NLFC are excited for what the future holds for the next 75 years of co-operation in Newfoundland & Labrador.
